About Dale

Bio

Contemporary fine art photographer Dale M Reid took charge of her destiny by making a commitment to herself and her life partner and soulmate.

Reid's belief in herself has allowed her to chart a new course in life as a full-time professional artist and woman. As Dale transitioned through her new life journey, she developed technical skills, questioned convention, trusted her instincts, and with her passion, was able to craft a distinctive artistic voice. Her artwork ranges from classical to sensual to erotic and engages the viewer to question what they see.

My **creative vision** uses the mushroom's bizarre and varied shape, alien textures, and intricate detail combined with composition and lighting to present crisp images with a dose of abstraction. Abstraction makes them unique and opens them to multiple interpretations depending on the viewer's imagination to use their personal memories and life experiences to build content.
